Subject: Microsoft Case

Gentlemen:

I strongly urge the Department of Justice to finally and completely settle the Microsoft case on the basis of most recent joint agreement between you and Microsoft.

While it is true that Microsoft is a very aggressive competitor, it is also true that the general public has greatly benefited from the Windows (Microsoft) standardization of computer's operating system. It is NOT true that Microsoft suppresses and dominates all competitors. Adobe, Intuit, IBM, and others all produce and successfully market products competitive with those of Microsoft.

The law should encourage the innovation and development superior products. Not the recourse to legal action when products are not competitive.

Yours truly,
Frank S. Fountain
